**DEFINITION AND ELIGIBILITY
CRITERIA FROM APPENDIX A OF
THE MISSOURI STATE PLAN**

Other Health Impairment Definition

“Other Health Impairment” means having limited strength, vitality alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment that is due to chronic or acute health problems, such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, and sickle cell anemia, and adversely affects a child’s educational performance.

Criteria for Initial Determination of Eligibility

A child displays a health impairment when:

- A. A health impairment has been diagnosed by a licensed physician, licensed psychologist, licensed professional counselor, or licensed clinical social worker;
- B. The health impairment adversely affects the child's educational performance.
